PURPOSE

This day is designed as a follow up to last year's clinic with Carole Precious, "Determining Speed" and to offer a Social Drive for those who choose to enjoy meandering through grass fields, treed bush and if desired, over bridges and through marked passages.

The KM's will be marked and two new creek crossings will be treated as one obstacle. The bridge is in process of getting railings. Somehow the Guts & Glory crossing does not appear all that intimidating this year (Ken tamed it) and the other trails wintered just fine. There will be 2 additional obstacles. Bring your timing device if desired.

A cones course will be set up with wide distances for your training and fun as you choose.
All obstacles optional: 3 – 4 Creek crossings, a bridge, plus two other obstacles.

Everything is optional.
